This is one of the most important Congressional races in the country. A Democratic victory in the 50th district on June 6 will provide the momentum needed to energize the Democratic effort to win back Congress in the November mid-term elections. The national Republican Party has spent over \$2.5 million attacking Francine Busby because polls show her with a 7 point lead in a district that they are desperate to keep. In just 16 days, we can win the first of the 15 seats that we need to take back Congress and send a powerful message that the country is ready for real change. We hope that you will lend your support to this critical effort.
